- 1. Oxtapp - Optimise your procrastination - All student media in one place!**
- 2. Psychiatry Research Project: Antidepressants, Emotions and Personality**

1. Oxtapp - Optimise your procrastination - All student media in one place!

Oxtapp is the app to make procrastinating that little bit more efficient so you can get back to not working just a little sooner!

The app includes all the news from The OxStu, Cherwell, The Tab, Versa, Isis and more in one place!

Available for free download on iOS and Android or viewable online.

iOS - <https://itunes.apple.com/gb/app/oxtapp/id1028037326?mt=8>

Android - <https://play.google.com/store/apps/details?id=com.cantapp.oxtapp>

Web - <http://www.oxtapp.com>

We're also looking for a new social media editor to join our team, if you're interested, get in touch at info@oxtapp.com

2. Psychiatry Research Project: Antidepressants, Emotions and Personality

We are looking for healthy volunteers aged 18-40 to participate in a study investigating how antidepressants might change the processing of emotions in people with different personality traits. The study involves receiving a 4 week treatment with a placebo (a dummy pill) or a common antidepressant. You will

- I. Fill in questionnaires once a week
- II. After 1 week, attend a first testing session with computer-based tests
- III. After 4 weeks, attend a second testing session with a brain scan

The Queen's College MCR

mcr.queens.ox.ac.uk

To assess whether your personality profile matches our study objectives, please fill in the questionnaire that you can find following this link and we will contact you about the result!
